NEUROSCIENCE M.S.
All students must meet the Requirements for the Master's Degree

OVERVIEW
The Neuroscience Graduate Program only awards an M.S. to students who have matriculated into the Ph.D. granting program, but cannot continue to the Ph.D. These individuals must be recommended by their advisory committee for the M.S., and are required to complete the minimum requirements for the M.S. as defined by the university, and must write a research-based master's thesis.
