ANIMAL SCIENCE

OVERVIEW
The research program focuses on dairy animal agriculture involving a combination of courses and graduate research. Areas of research interest include lactation physiology, mastitis, calf and cow nutrition, immunology, and genetics.

DEGREES
- Animal Science AMP
- Animal Science M.S.

FACULTY
Barbano, David Mark; Adjunct Professor, Department of Animal Science; PHD, Cornell University
Barlow, John; Assistant Professor, Department of Animal Science; DVM, University of Illinois Urbana-Champaign; PHD, University of Vermont
Dann, Heather; Adjunct Assistant Professor, Department of Animal Science; PHD, University of Illinois
Fobare Erickson, Patricia Ann; Senior Lecturer; DVM, Cornell University
Grant, Richard; Adjunct Professor, Department of Animal Science; PHD, Purdue University
Greenwood, Sabrina Louise; Assistant Professor, Department of Animal Science; PHD, University of Guelph
Kerr, David; Professor, Department of Animal Science; PHD, University of Saskatchewan
Kraft, Jana; Assistant Professor, Department of Animal Science; PHD, University of Jena
McKay, Stephanie Dawn; Assistant Professor, Department of Animal Science; PHD, University of Alberta
Smith, Julia M.; Extension Associate Professor, Department of Animal Science; PHD, Cornell University
Townson, David H; Professor, Department of Animal Science, PHD, Michigan State University
Zhao, Feng-Qi; Associate Professor, Department of Animal Science; PHD, University of Alberta

Courses
ASCI 215. Physiology of Reproduction. 3 Credits.
Fundamental principles of the physiology of reproduction with emphasis on, but not limited to, farm animals. Prerequisite: ASCI 141 or equivalent or Instructor permission.

ASCI 216. Endocrinology. 3 Credits.
Physiology of endocrine and autocrine/paracrine systems and growth factors. Prerequisites: Course in both Biology and physiology; one course in Anatomy desirable.

ASCI 220. Lactation Physiology. 3 Credits.
Physiological mechanisms that control and affect lactation in domestic and laboratory animals with emphasis on dairy cattle. Includes mammary anatomy, development and health, and milk synthesis. Prerequisite: One Chemistry course and one course in Anatomy and Physiology, or Instructor permission.

ASCI 230. Agricultural Policy & Ethics. 3 Credits.
Examines American agriculture and policies from various perspectives - historical, political, ecological, technological, social, economic, and ethical. Emphasis on contemporary issues, policy options, future developments. Prerequisite: Junior standing or permission.

ASCI 263. Clin Top:Companion Animal Med. 3 Credits.
The use of case studies in companion animal medicine to develop clinical, analytical, and diagnostic skills. Prerequisites: ASCI 118, ASCI 141; Junior standing.

ASCI 264. Clin Topics:Livestock Medicine. 3 Credits.
An advanced study of diseases in cattle, sheep, goats, and pigs, emphasizing disease detection, pathobiology, treatment and prevention. Prerequisites: ASCI 118, ASCI 141, Junior standing.

ASCI 272. Adv Top:Zoo,Exotic,Endang Spec. 3 Credits.
An exploration of modern zoo philosophy and ethics and the extent of human intervention necessary for the preservation of endangered species. Prerequisites: ASCI 171 and Instructor permission.

ASCI 297. Advanced Special Topics. 1-18 Credits.
Written courses, seminars or topics beyond the scope of existing offerings. See Schedule of Courses for specific titles. Prerequisite: Department Chair permission. May enroll more than once for maximum of fifteen hours.

ASCI 298. Advanced Special Topics. 1-18 Credits.
Written courses, seminars or topics beyond the scope of existing offerings. See Schedule of Courses for specific titles. Prerequisite: Department Chair permission. May enroll more than once for maximum of fifteen hours.

ASCI 301. ASCI Graduate Journal Club. 1 Credit.
Students learn to critically read and discuss current scientific literature in terms of scientific method and merit. Pre/corequisite: Graduate standing.

ASCI 302. ASCI Graduate Seminar. 1 Credit.
Topics of current faculty and graduate student interest presented in a seminar-discussion format. Pre/corequisite: Graduate standing.

ASCI 303. Research Proposal Writing. 1 Credit.
Students develop and write a formal proposal for their graduate research project. Pre/co-require: Graduate standing; must be taken prior to/during the semester of student’s first committee meeting.

ASCI 322. One Health: Zoonoses. 3 Credits.
Zoonoses and vector-born disease account for the majority of emerging and re-emerging diseases. Students will learn about the drivers that influence infection in animals and humans, tools used for disease monitoring and prevention, and policies and programs aimed at prevention.
ASCI 391. Master's Thesis Research. 1-10 Credits.

ASCI 392. Independent Literature Rsch. 1-6 Credits.
Reading and literature research culminating in a paper on a topic of
current interest in Animal Sciences.

ASCI 395. Special Topics. 1-6 Credits.

ASCI 396. Special Topics. 1-6 Credits.

ASCI 491. Doctoral Dissertation Research. 1-12 Credits.
