BIOCHEMISTRY

http://www.med.uvm.edu/biochemistry/grad (http://www.med.uvm.edu/biochemistry/grad/)

OVERVIEW

The goal of the Biochemistry Graduate Program at the University of Vermont is to prepare students for careers in science as both researchers and educators. This is accomplished by expanding knowledge of both chemistry and biochemistry, while cultivating the ability for critical analysis, creativity and independent study.

DEGREES

- Biochemistry AMP (http://catalogue.uvm.edu/graduate/biochemistry/biochemistryamp/)
- Biochemistry M.S (http://catalogue.uvm.edu/graduate/biochemistry/biochemistryms/).

FACULTY

Berger, Christopher Lewis; Professor, Department of Molecular Physiology and Biophysics; PHD, University of Minnesota Twin Cities
Bouchard, Beth Ann; Assistant Professor, Department of Biochemistry; PHD, University of Vermont
Brummel-Ziedins, Kathleen E.; Professor, Department of Biochemistry; PHD, University of Maryland College Park
Everse, Stephen Jay; Associate Professor, Department of Biochemistry; PHD, University of California San Diego
Franklyn, Christopher Steward; Professor, Department of Biochemistry; PHD, University of California Santa Barbara
Gordon, Jonathan; Assistant Professor, Department of Biochemistry; PHD, University of Western Ontario
Heath, Jessica; Assistant Professor, Department of Pediatrics; Department of Biochemistry; MD, SUNY Stony Brook
Honda, Robert J.; Associate Professor, Department of Biochemistry; PHD, Ohio State University
Kelm, Robert; Associate Professor, Department of Medicine-Cardiovascular; PHD, University of Vermont
Lian, Jane; Professor, Department of Biochemistry; PHD, Boston University
Morrical, Scott Walker; Professor, Department of Biochemistry; PHD, University of Wisconsin-Madison
Quénet, Delphine; Assistant Professor, Department of Biochemistry, PHD; University of Strasbourg, France
Silveira, Jay R.; Assistant Professor, Department of Biochemistry; PHD, University of Vermont
Stein, Gary; Professor, Department of Biochemistry; PHD, University of Vermont
Stein, Janet; Professor, Department of Biochemistry; PHD, Princeton University
Stevens Jr., Stanley M.; Associate Professor, Department of Biochemistry; PHD, University of Florida
Tracy, Paula Babiarz; Professor, Department of Biochemistry; PHD, Syracuse University

Tye, Coralee E.; Assistant Professor; Department of Biochemistry; PHD, Western University
Zaidi, Sayyed Kaleem; Associate Professor, Department of Biochemistry; PHD, University of Punjab

Courses

BIOC 201. Fundamentals of Biochemistry. 3 Credits.
Provides a broad introduction to the field of biochemistry. Students will explore the molecular basis and chemical principles of biochemistry pertinent to living systems. This course is taught by LCOM faculty and emphasizes the relevance of biochemistry to health, disease, physiology and medicine. Prerequisites: CHEM 026, CHEM 042, CHEM 048, CHEM 142, or equivalent; BIOL 002, BCOR 012, BCOR 103, or equivalent.

BIOC 205. Biochemistry I. 3 Credits.
Introduction to chemistry and structure of biological macromolecules; examination of mechanisms of chemical processes in biological systems including enzyme catalysis, biosynthesis, regulation, and information transfer. Prerequisite: CHEM 048 or CHEM 142 or CHEM 144. Cross-listed with: CHEM 205 and MMG 205.

BIOC 206. Biochemistry II. 3 Credits.
Continuation of Biochemistry I. Biochemistry of nucleic acids; nucleic acid based processes, such as replication and transcription; cellular information transfer, genomics, and proteomics. Prerequisite: BIOC 205, CHEM 205, or MMG 205. Cross-listed with: CHEM 206, MMG 206.

BIOC 207. Biochemistry Lab. 3 Credits.
Introduction to biochemical tools, including spectrometry, chromatography, and electrophoresis; natural and recombinant enzyme isolation; assays of DNA-modifying enzymes; computer-based structure/function exercises. Prerequisite: BIOC 205, CHEM 205, or MMG 205. Cross-listed with: CHEM 207, MMG 207.

BIOC 240. Macromol Struct Prot&Nucl Acid. 3 Credits.
Introduction to structural biology and macromolecular structure with an emphasis on protein-protein and protein-nucleic acids interactions. Prerequisites: BIOL 002 or BCOR 012, and CHEM 142; Junior standing. Cross-listed with: MMG 240. Alternate years.

BIOC 275. Adv Biochem of Human Disease. 3 Credits.
The course takes a deep dive into five distinct areas of biochemistry related to a disease or group of diseases primarily through group learning. Key biochemical principles are reviewed and extended. Additionally students will read and discuss a primary literature article with each area. Prerequisites: NSF 183, BIOC 201, or BIOC 205.

BIOC 301. General Biochemistry. 0 or 3 Credits.
Survey for science majors. Chemistry, structure, metabolism, and function of proteins, carbohydrates, lipids; enzymes, bioenergetics and respiratory processes. Prerequisite: CHEM 142 or CHEM 144, or Instructor permission.
BIOC 302. General Biochemistry. 3 Credits.
Survey for science majors. Amino acids, nucleic acids, protein synthesis, cellular and physiological control mechanisms.
Prerequisite: CHEM 142 or CHEM 144, or Instructor permission.

BIOC 351. Proteins I: Structure & Function. 3 Credits.
Special Topics: Introduction to concepts in protein structure and chemistry as well as exploration of ideas in a 'hands on' fashion using computational resources. Prerequisite: BIOC 301, or Department permission. Alternate years.

BIOC 372. Cancer Biology. 3 Credits.
Overview of cancer biology for health science students. Foundation for cancer research. Lecture format; interdisciplinary viewpoint; outside lectures. Prerequisite: BIOC 302, or Department permission.

BIOC 381. Seminar. 1 Credit.
A review of recent developments and current literature in the various fields of biochemistry. Prerequisite: Graduate standing.

BIOC 391. Master's Thesis Research. 1-12 Credits.
Credit as arranged.

BIOC 393. Independent Study. 1-18 Credits.
A course which is tailored to fit the interests of a specific student, which occurs outside the traditional classroom/laboratory setting under the supervision of a faculty member, for which credit is awarded. Offered at department discretion.

BIOC 395. Special Topics. 1-12 Credits.

BIOC 396. Advanced Special Topics. 1-12 Credits.

BIOC 491. Doctoral Dissertation Research. 1-12 Credits.
Credit as arranged.

BIOC 496. Advanced Special Topics. 1-18 Credits.
See Schedule of Courses for specific titles.
