

COMMUNITY RESILIENCE AND PLANNING CGS

All students must meet the Requirements for the Certificates of Graduate Study.

OVERVIEW

The 18-credit Certificate of Graduate Studies in Community Resilience and Planning (CRP) helps degree and non-degree graduate students develop the knowledge, skills, and abilities to meaningfully contribute to building and maintaining resilient communities in dynamic and changing environments. Students pursuing this certificate will explore community resilience and planning through a variety of lenses including natural, economic, social, and political to strengthen their understanding of the challenges facing communities in Vermont, throughout the U.S., and around the globe. With a core set of courses designed to provide students with a survey of the community resilience and sustainability fields, The CRP prepares students with the tools needed to lead and assist communities through times of crisis and transition.
