DOCTOR OF PHYSICAL THERAPY (DPT)

Courses

DPT 401. Health Systems I - Policy. 2 Credits.
Explores U.S. health systems including the role of public and private sectors. Federal and state health policy and legislation are examined in relationship to physical therapy. Examine mechanisms of health care delivery in the US in comparison to international systems. Prerequisites: ANNB 301, DPT 410, DPT 450; Doctor of Physical Therapy student.

DPT 402. Health Sys II-Quality Improvmt. 2 Credits.
Principles and practices of health care quality, quality improvement, and design and management of continual improvement activities. Topics will include quality measurement, management, and patient safety and their application in a variety of health care delivery settings and organizations. Prerequisites: DPT 421, DPT 423, DPT 426, DPT 452, DPT 492; Doctor of Physical Therapy student.

DPT 403. Health Sys III-Business Mgt. 2 Credits.
Physical therapist practice management including evidence-based business and financial management, administration, and health informatics. Topics will incorporate business management from a physical therapist perspective, while expanding knowledge on health systems and the role of physical therapist in various practice settings. Prerequisites: DPT 402, DPT 422, DPT 424, DPT 427, DPT 460, DPT 493; Doctor of Physical Therapy student.

DPT 404. Health Sys IV-Health Promotion. 3 Credits.
Fundamental concepts of health behavior, health education, and health promotion. Examination of health promotion programs at the level of policy, community, social spheres, and individuals. Experiential learning through health promotion in consideration of health behavior science and evidence-based practice. Prerequisites: DPT 402, DPT 422, DPT 424, DPT 427, DPT 460, DPT 493; Doctor of Physical Therapy student.

DPT 405. Clinical Medicine. 4 Credits.
Fundamental knowledge and application of pathophysiology as it pertains general health and systemic disease and its relationship to the role of the physical therapist as a movement system expert and a primary care practitioner. Prerequisites: ANNB 301, DPT 410, DPT 450; Doctor of Physical Therapy student.

DPT 406. Exercise Science. 3 Credits.
Principles and applications of exercise assessment/testing, prescription and progression of the exercise program, including response to exercise. Course will emphasize understanding and application of the ACSM guidelines to exercise testing and prescription to individuals across the lifespan. Prerequisites: ANNB 301, DPT 410, DPT 450; Doctor of Physical Therapy student.

DPT 407. Pharmacology and Nutrition. 1 Credit.
Foundational knowledge of pharmacology and nutrition pertinent to physical therapist practice. Introduction to pharmacokinetics, pharmacodynamics, mechanisms of action of various drugs, and adverse reactions. Topics will also include nutrition in relation to primary, secondary, and tertiary prevention. Prerequisites: DPT 401, DPT 405, DPT 406, DPT 411, DPT 414, DPT 415; Doctor of Physical Therapy student.

DPT 408. Fundamentals Critical Inquiry. 3 Credits.
In-depth application of scientific inquiry inclusive of research design, statistical methods, research question development, critical appraisal and interpretation of evidence related to clinical practice are explored. Diagnostic, intervention, and prognostic studies are used in the application of the inquiry process. Prerequisites: DPT 401, DPT 405, DPT 406, DPT 411, DPT 414, DPT 415; Doctor of Physical Therapy student.

DPT 410. Fundamentals of Clinical Pract. 3 Credits.
Fundamental skills for physical therapists including patient/client management principles and practices such as examination techniques, history taking and interviewing skills, fundamental patient handling skills, clinical documentation and patient handling skills. Prerequisite: Doctor of Physical Therapy student.

DPT 411. Movement System I. 3 Credits.
Application of kinesiology and biomechanical principles to the analysis and management of human movement, posture, joint structure and function, and gait. Examination of mechanical properties of tissue with respect to lifespan, injury and healing, and principles of diagnostic imaging. Prerequisites: ANNB 301, DPT 410, DPT 450; Doctor of Physical Therapy student.

DPT 412. Movement System II. 4 Credits.
Motor control/learning and development across the lifespan, and a theoretical framework to develop intervention strategies. Principles of examination and evaluation of normal and dysfunctional movement will be discussed, including posture, gait, reach and grasp. Electodiagnostic testing will also be covered. Prerequisites: DPT 401, DPT 405, DPT 406, DPT 411, DPT 414, DPT 415; Doctor of Physical Therapy student.

DPT 413. Movement System III. 4 Credits.
Utilize a movement systems approach to address the management of patients with multi-system involvement. Focus on the role of the physical therapist as primary care practitioner including emergency scenarios across the lifespan. Prerequisites: DPT 403, DPT 404, DPT 416, DPT 425, DPT 453, DPT 494; Doctor of Physical Therapy student.

DPT 414. Clinical Reasoning. 2 Credits.
Fundamental clinical-decision making frameworks in contemporary physical therapy practice, using the International Classification of Functioning, Disability and Health (ICF) and the Hypothesis Oriented Algorithm for Clinicians within the context of patient/client management model. Prerequisites: ANNB 301, DPT 410, DPT 450; Doctor of Physical Therapy student.
DPT 415. Psychsoc Aspects Hlth Wellbeing. 3 Credits.
Psychosocial dimensions of health, illness, and disability across the lifespan and in consideration of diverse perspectives. Consideration of physical therapy implications for management of common mental health conditions and integrate patient and family-centered communication skills in simulated clinical situations. Prerequisites: ANN 301, DPT 410, DPT 450; Doctor of Physical Therapy student.

DPT 416. Rehabilitation Technology. 3 Credits.
Evaluation, prescription, and patient / client education of rehabilitation technology used in physical therapy management of individuals to address or enhance movement across the lifespan. Topics will include prescription of and training with technology, devices, and environmental modifications. Prerequisites: DPT 402, DPT 422, DPT 424, DPT 427, DPT 460, DPT 493; Doctor of Physical Therapy student.

DPT 420. Musculoskeletal Management I. 4 Credits.
Screening, examination, evaluation, diagnosis, prognosis, management and outcomes for patients with musculoskeletal dysfunction of the extremities are covered. Topics include pathophysiology, risk appraisal, medical and surgical management, and biopsychosocial considerations in the management of these conditions across the lifespan. Prerequisites: DPT 401, DPT 405, DPT 406, DPT 411, DPT 414, DPT 415; Doctor of Physical Therapy student.

DPT 421. Musculoskeletal Management II. 4 Credits.
Screening, examination, evaluation, diagnosis, prognosis, management and outcomes for patients with musculoskeletal dysfunction of the spine are covered. Topics include pathophysiology, risk appraisal, medical and surgical management, and biopsychosocial considerations in the management of these conditions across the lifespan. Prerequisites: DPT 407, DPT 408, DPT 412, DPT 420, DPT 451, NSCI 302; Doctor of Physical Therapy student.

DPT 422. Musculoskeletal Management III. 3 Credits.
Screening, examination, evaluation, diagnosis, prognosis, intervention and outcomes for patients with complex musculoskeletal system dysfunction are covered. Case management as movement system experts of patient/client populations with complex primary or underlying conditions across the lifespan are explored. Prerequisites: DPT 421, DPT 423, DPT 426, DPT 452, DPT 492; Doctor of Physical Therapy student.

DPT 423. Neurological Management I. 4 Credits.
Focus on movement system dysfunction among individuals with neuromuscular conditions across the lifespan. Introduction to the principles and components of neurological examination and interventions emphasizing body structure/function with neuropathology considerations will be discussed. Prerequisites: DPT 407, DPT 408, DPT 412, DPT 420, DPT 451, NSCI 302; Doctor of Physical Therapy student.

DPT 424. Neurological Management II. 3 Credits.
Screening, examination, diagnosis, prognosis, management and outcomes for individuals with neurological impairments across the life span are covered. Evaluation and interventions of the movement system deficits considering pathophysiology and biopsychosocial framework will be addressed through case-based learning. Prerequisites: DPT 421, DPT 423, DPT 426, DPT 452, DPT 492; Doctor of Physical Therapy student.

DPT 425. Neurological Management III. 3 Credits.
Incorporate advanced clinical decision making in the plan of care of complex patients across the lifespan. Consideration of differential diagnosis, patient environment and case management will be discussed. Prevention, risk reduction strategies and continuum of care will be emphasized. Prerequisites: DPT 402, DPT 422, DPT 424, DPT 427, DPT 460, DPT 493; Doctor of Physical Therapy student.

DPT 426. Cardiovasc and Pulmonary Mgt. 3 Credits.
Screening, examination, evaluation, diagnosis, prognosis, management and outcomes for patients with cardiovascular and pulmonary conditions are covered. Topics include pathophysiology, risk appraisal, medical and surgical management, and biopsychosocial considerations in the management of these conditions across the lifespan. Prerequisites: DPT 407, DPT 408, DPT 412, DPT 420, DPT 451, NSCI 302; Doctor of Physical Therapy student.

DPT 427. Integmnt, Endocrine, Multi Sys. 3 Credits.
Screening, examination, evaluation, diagnosis, prognosis, management and outcomes for patients with integumentary, endocrine, lymphatic, oncology, autoimmune and multisystem conditions are covered. Topics include pathophysiologic, risk appraisal, medical and surgical management, and biopsychosocial considerations across the lifespan. Prerequisites: DPT 421, DPT 423, DPT 426, DPT 452, DPT 492; Doctor of Physical Therapy student.

DPT 450. Professional Form/Leadership I. 1 Credit.
Introduces professionalism, leadership, ethics, cultural competence, interprofessional education-practice and teaching-learning within the role of a doctoring professional, physical therapist contemporary practice and the healthcare environment. Prerequisite: Doctor of Physical Therapy student.

DPT 451. Prof Formation/Leadership II-ICE. 2 Credits.
Advanced study of professional formation and personal leadership development within the role of a doctoring professional. Focus on role identity, professional practice expectations within ethical/legal standards of practice, teaching-learning, supervision/delegation, and introduces IPE role within Integrated Clinical Experiences (ICE). Prerequisites: DPT 401, DPT 405, DPT 406, DPT 411, DPT 414, DPT 415; Doctor of Physical Therapy student.
DPT 452. Prof Formatn/Leadership III-ICE. 2 Credits.
Advanced concepts of professional formation and personal leadership development within the role of a doctoring professional. Focuses on collaborative practice expectations within ethical/legal standards of practice, teaching-learning, supervision/delegation, and IPE. Prepares for assuming responsibilities within Integrated Clinical Experiences (ICE). Prerequisites: DPT 407, DPT 408, DPT 412, DPT 420, DPT 451, NSCI 302; Doctor of Physical Therapy student.

DPT 453. Prof Form/Leadership IV-ICE/IPE. 2 Credits.
Integrates professional formation and leadership development as a doctoring professional. Emphasizes interprofessional practice, education and support of health and well-being of others. Justifies ethical/legal decisions, social responsibility and advocacy. Expands Integrated Clinical Experiences (ICE) to community engagement and health promotion. Prerequisites: DPT 402, DPT 422, DPT 424, DPT 427, DPT 460, DPT 493; Doctor of Physical Therapy student.

DPT 460. Clinical Edu Experience I. 2 Credits.
Eight week supervised clinical experience in one of the following settings: outpatient, inpatient, or specialty clinics. Experience will include safe, effective, and comprehensive patient care. Students will demonstrate proficiency with skills applying foundational knowledge associated with patient care and management. Prerequisites: DPT 423, DPT 421, DPT 426, DPT 452, DPT 493, DPT 422, DPT 427, DPT 424, DPT 402, DPT 494; Doctor of Physical Therapy student.

DPT 461. Clinical Edu Experience IIA. 2 Credits.
Six week supervised clinical experience in one of the following settings: outpatient, inpatient, or specialty clinics. Experience will include safe, effective, and comprehensive patient care. Students will demonstrate proficiency with skills applying foundational knowledge associated with patient care and management. Prerequisites: DPT 413; Doctor of Physical Therapy student.

DPT 462. Clinical Edu Experience IIB. 2 Credits.
Six week supervised clinical experience in one of the following settings: outpatient, inpatient, or specialty clinics. Experience will include safe, effective, and comprehensive patient care. Students will demonstrate proficiency with skills applying foundational knowledge associated with patient care and management. Prerequisites: DPT 413, DPT 461; Doctor of Physical Therapy student.

DPT 463. Clinical Edu Experience III. 4 Credits.
Twelve week supervised clinical experience in one of the following settings: outpatient, inpatient, or specialty clinics. Experience will include safe, effective, and comprehensive patient care. Students will demonstrate proficiency with skills applying foundational knowledge associated with patient care and management. Prerequisites: DPT 462; Doctor of Physical Therapy student.

DPT 490. Internship. 1-18 Credits.
On-site supervised work experience combined with a structured academic learning plan directed by a faculty member or a faculty-staff team in which a faculty member is the instructor of record, for which academic credit is awarded. Offered at department discretion.

DPT 491. Dissertation Research. 1-18 Credits.
DPT 492. Independent Study. 1-18 Credits.
DPT 493. Doctoral Research Project I. 1 Credit.
Advanced research methods, including development of a research question (PICO), research design, proposal and IRB submission. Research questions might be systematic reviews, intervention, diagnostic, or prognostic studies and may use qualitative, quantitative, or mixed-methods design. Prerequisites: DPT 407, DPT 408, DPT 412, DPT 420, DPT 451, NSCI 302; Doctor of Physical Therapy student.

DPT 494. Doctoral Research Project II. 2 Credits.
Implementation of research proposal including data collection and analysis. Research question might be systematic reviews, intervention, diagnostic, or prognostic studies; and may utilize qualitative, quantitative, or mixed-methods design Prerequisites: DPT 421, DPT 423, DPT 426, DPT 452, DPT 493; Doctor of Physical Therapy student.

DPT 495. Doctoral Research Project III. 2 Credits.
Completion of research project inclusive of comprehensive analysis, synthesis of findings based on research question, implications to practice and dissemination of finding via manuscript and presentations. This project fulfills a component of the Doctoral Capstone project. Prerequisites: DPT 402, DPT 422, DPT 424, DPT 427, DPT 460, DPT 494; Doctor of Physical Therapy student.

DPT 496. Special Topics. 1-18 Credits.
See Schedule of Courses for specific titles.
