LEADERSHIP FOR SUSTAINABILITY M.P.S.

All students must meet the Requirements for the Master of Professional Studies Degree

OVERVIEW

The Masters of Professional Studies in Leadership for Sustainability is a two-year, low-residency professional graduate program designed for emerging and experienced leaders who wish to deepen their capacity to catalyze change and transcend boundaries. This two-year program offers a blend of residential intensives across the country, interactive online courses, professional coaching, and access to a network of faculty and professional affiliates. The program curriculum explores leadership practices inspired by the wisdom of nature and grounded in a critical inquiry of the mindsets, assumptions, and patterns of power and privilege that underlie change-making efforts.

SPECIFIC REQUIREMENTS

Requirements for Admission to Graduate Studies for the Degree of Master of Science

Requirements for Admission to Graduate Studies for the Degree of Master of Professional Studies

- A sound academic record, including a baccalaureate degree from an accredited undergraduate institution
- Satisfactory scores on the general aptitude section of the Graduate Record Examination (GRE). GMAT and LSAT scores are also accepted. This requirement may be waived for applicants with a minimum of 5 years of relevant professional experience in the field. Students who may be eligible for this waiver should send a resume to the program director for review and confirmation.
- Three letters of recommendation attesting to the candidate's academic and professional potential for graduate work
- A personal statement articulating motivation for participating in this program
- For international students whose native language is not English or who have not completed undergraduate degrees in English, Test of English as a Foreign Language (TOEFL) scores must be submitted.

Minimum Degree Requirements

Successful completion of thirty credits, including:

</table>

An approved set of courses that fulfill track specialization (in ecological leadership, education for sustainability, or ecological economics) or a suite of elective courses based on student interests.

CAPSTONE PROJECT

The Capstone is designed to provide MLS students with an applied leadership experience that integrates core program-level learning outcomes while addressing pressing challenges/opportunities in their own home community/organization. The project process is supported through a combination of online modules, professional affiliate coaching, and faculty mentorship, feedback and assessment. Students are required to develop and defend a project proposal; implement project activities and objectives; complete a culminating final report; and present their Capstone project at the annual Leadership for Sustainability Summit.

Comprehensive Examination

The written comprehensive exam will take place during the second year of the MLS Program. The exam will require students to demonstrate competency in the MLS programmatic learning outcomes. Each student’s comprehensive exam will be administered and assessed by a team of MLS faculty members and professional affiliates.

Requirements for Advancement to Candidacy for the Degree of Master of Science

Advancement requires:

- Completion of the thirty (30) academic credit sequence described above
- Attendance at three week-long residential intensives
- Completion of the Capstone Project and Comprehensive Exam
- Presentation at the annual Leadership for Sustainability Summit
