OVERVIEW

The Department of Nursing offers graduate programs which prepare nurses to assume leadership roles within health care systems in a variety of settings, to expand knowledge of the discipline of nursing, and to acquire the foundation for doctoral study and continued professional development. The ability to work collaboratively on an interdisciplinary team, provide patient-centered care, employ evidence-based practice, access information technology, and apply quality improvement strategies are basic competencies expected of all graduates of these programs.

The following Graduate Nursing Programs are currently being offered:

**Master of Science in Nursing - Clinical Nurse Leader (CNL)**
The Master of Science degree program for the Clinical Nurse Leader (CNL) prepares nurses for leadership positions through which evidenced-based care for groups of patients will be managed.

**Direct Entry Clinical Nurse Leader (DCNL)**
The Direct Entry into Clinical Nurse Leader (DCNL) is an accelerated, alternative-entry program for those who have not graduated from a nursing program, and who hold a baccalaureate or higher degree in another field. The program prepares the student to progress into the MS-CNL track. It is not a stand-alone accelerated RN program. The program begins with 36.5 credits and includes 810 clinical hours of full-time, year-round coursework to prepare for the NCLEX-RN exam and gain registered nurse licensure in the State of Vermont (not transferable to other states until completion of the DNP).

**Direct Entry Program in Nursing (DEPN)**
The Direct Entry Program in Nursing (DEPN) is an accelerated, alternative-entry program for those who have not graduated from a nursing program, and who hold a baccalaureate or higher degree in another field. The program prepares the student to progress into the DNP-Primary Care NP track. It is not a stand-alone accelerated RN program. The program begins with 36.5 credits and includes 810 clinical hours of full-time, year-round coursework to prepare for the NCLEX-RN exam and gain registered nurse licensure in the State of Vermont (not transferable to other states until completion of the DNP).

**Doctor of Nursing Practice (DNP)**
The Doctor of Nursing Practice (DNP) degree program has two entry options; one for registered nurses with a baccalaureate or higher degree (in nursing or another field) who wish to practice as a nurse practitioner in Primary Care, and another for post master’s degree in nursing applicants who wish to pursue the DNP.

**Post-Master’s Doctor of Nursing Practice (DNP)**
For candidates who have earned a MS degree in nursing and wish to pursue a DNP. Within the Post Master’s DNP there are two tracks: Primary Care DNP and Executive Nurse Leader DNP.

CNHS graduate nursing students are required to complete the CNHS mandates prior to matriculating into the program. Students must keep these requirements current throughout their program: Immunizations, CPR, HIPPA/OSHA training, annual PPD, and RN License. Some clinical sites require a Criminal Background check as well. It is required to be compliant with this process to participate in clinical courses/experiences. Complete details on CNHS Mandatories are available on the College website.
