DEPARTMENT OF ANIMAL AND VETERINARY SCIENCES

http://asci.uvm.edu/

Domestic animals play a major role in our lives through agriculture, recreation, biomedical science, and companionship. The mission of the Department of Animal and Veterinary Sciences is to provide a high quality, broad-based education emphasizing domestic animals and their interactions with humans.

Graduates enter veterinary or other professional schools, pursue careers in biomedical science, agribusiness, companion animal and equine care and management, zoos and aquaria, or education. To provide the necessary flexibility to achieve this diversity, students work closely with faculty advisors to individualize their programs.

The Department of Animal and Veterinary Sciences actively encourages participation in undergraduate research, internships, and study abroad. By combining classroom, laboratory, and hands-on practical experience, students maximize their performance in a friendly environment and develop responsibility for and control over their education.

MAJORS
ANIMAL AND VETERINARY SCIENCES MAJOR
Animal Science B.S.

MINORS
ANIMAL AND VETERINARY SCIENCES MINOR
Animal Science

GRADUATE
Animal and Veterinary Sciences M.S.
Animal, Nutrition and Food Science Ph.D.
Cellular, Molecular, and Biomedical Sciences Ph.D.

See the online Graduate Catalogue for more information

Courses
ASCI 001. Introductory Animal Sciences. 0 or 4 Credits.
An overview of the genetics, nutrition, reproduction, and management of livestock and recreation species; introduction to animal behavior, animal disease, and biotechnology. Prerequisite: Animal Science major or Instructor permission.

ASCI 005. Intro to the Horse. 3 Credits.
Starting with evolution and domestication and progressing to current breeds, colors, uses, health, and management of horses, students gain a basic understanding of one of our most beloved domestic animals. No prior horse experience or knowledge is required.

ASCI 006. Companion Animal Care & Mgmt. 3 Credits.
Scientific principles of nutrition, breeding selection, health, management practices, pet therapy, and animal bonding. Primary emphasis on cat and dog.

ASCI 021. Horse Barn Cooperative. 1 Credit.
Develops skills in the practical aspects of equine management of individual horses and horses maintained in a group setting using hands-on experiences and peer teaching. Students care for their own horse or an Animal Science horse. Prerequisites: For students currently accepted into the UVM Horse Barn Cooperative Program or currently enrolled in ASCI 121; Instructor permission.

ASCI 030. Beginner Horseback Riding. 1 Credit.
Instruction in the basics of balanced seat horseback riding, including both ground skills (grooming, tacking and untacking) and mounted skills (mounting, dismounting, walking, trotting, cantering). Emphasizes safety and control.

ASCI 095. Internship. 1-3 Credits.
On-site supervised work experience combined with a structured academic learning plan directed by a faculty member or a faculty-staff team in which a faculty member is the instructor of record, for which academic credit is awarded. Offered at department discretion.

ASCI 097. Introductory Special Topics. 1-18 Credits.
See Schedule of Courses for specific titles.

ASCI 098. Introductory Special Topics. 1-18 Credits.
See Schedule of Courses for specific titles.

ASCI 108. Equine Enterprise Management. 3 Credits.
Provides guidelines for understanding risks, liabilities and other pertinent topics necessary for running a successful equine-related business. Prerequisite: ASCI 001.

ASCI 110. Animal Nutrit, Metab & Feeding. 0 or 4 Credits.
Principles of meeting the nutrient requirements of animals, especially as they relate to the practical problems of formulation and production systems. Prerequisite: Minimum Sophomore standing.

ASCI 117. Horse Health and Disease. 3 Credits.
Discusses the basic anatomy and physiology of the horse, common equine diseases and problems, their diagnoses, prevention, and treatment.

ASCI 118. Appl Animal Health. 0 or 3 Credits.
A study of small and large domestic animal diseases. Natural response to disease, methods of diagnosis, control, and treatment. Prerequisite: ASCI 001, a Biology course, or Instructor permission.

ASCI 119. Equine Training Techniques. 0 or 3 Credits.
Behavior modification and training of the young horse under saddle and in the cart. Introduction to interdisciplinary directions open to the equine athlete and to conditioning programs associated with these options. Prerequisite: ASCI 001.
ASCI 121. Equus. 2-4 Credits.
A hands-on equine management experience. Students perform horse duties, recordkeeping, and make financial and management decisions on a horse boarding operation. Prerequisites: Sophomore standing; Instructor permission.

ASCI 122. Animals in Soc/Animal Welfare. 3 Credits.
Designed to heighten awareness and understanding of human-animal relationships in society, agriculture, and science. Prerequisites: Animal Science major; Sophomore standing.

ASCI 125. Equine Instructing Techniques. 0 or 2 Credits.
Examines philosophies, concepts and teaching-learning strategies needed for the development of sound equine instructing skills. Students gain hands-on horseback riding teaching experience during the second half of the semester in a supported environment. Prerequisite: ASCI 001 or Instructor permission.

ASCI 129. Horse Barn Cooper Exec Committee. 1 Credit.
Student leaders, chosen by their Horse Barn Cooperative peers and Horse Barn Faculty Advisor(s), oversee the management of the UVM Horse Barn, including facilities, schedule, events, horse care, and student responsibilities. Students are supported by the Horse Barn Faculty Advisor(s). Prerequisites: ASCI 021 and Instructor permission.

ASCI 130. Intermediate Horsecback Riding. 1 Credit.
Students gain further experience with balanced seat horsecback riding, including ground skills (grooming, tacking and untacking) and mounted skills (walking, trotting and cantering). Emphasizes safety and control. Prerequisites: Instructor permission. Student should be able to walk, trot and canter off the lunge line.

ASCI 134. CREAM. 4 Credits.
A two-semester course in which students perform the work and make the financial and management decisions associated with the CREAM dairy herd. Prerequisites: Sophomore standing; Instructor permission.

ASCI 135. CREAM. 4 Credits.
A two-semester course in which students perform the work and make the financial and management decisions associated with the CREAM dairy herd. Prerequisites: Sophomore standing; Instructor permission.

ASCI 141. Anat&Physiol Domestic Animals. 0 or 4 Credits.
A comprehensive review of the structure and function of domestic animals, emphasizing those of economic importance. Differences between mammalian and avian species are discussed. Prerequisite: ASCI 001, BIOL 001, or BCOR 011. BIOL 002 or BCOR 012 recommended.

ASCI 143. Forage and Pasture Mgmnt. 4 Credits.
Principles and practices of growing and utilizing forage plants for hay, silage and pasture; introduction to management intensive grazing; understanding forage quality. Pre/co-requisite: PSS 010 or one semester Biology or one semester Plant Biology or Instructor permission. Cross-listed with: PSS 143.

ASCI 154. Dog Training and Behavior. 3 Credits.
Canine behavior is thoroughly examined and applied to the training and behavior modifications of dogs. Prerequisite: ASCI Major or Instructor permission.

ASCI 156. Dairy Management Seminar. 2 Credits.
Seminar course addresses research, policy, and production topics in the dairy industry and develops leadership roles through guest speakers, field trips, and group projects. Prerequisites: Minimum Junior standing or with Instructor permission any student interested in dairy industry.

ASCI 168. Animal Genetics. 3 Credits.
The study of DNA with an emphasis in genetics of animal species, included but not limited to livestock and companion animals. Topics include patterns of inheritance, molecular genetics, gene regulation, biotechnology, genomics, population and quantitative genetics. Prerequisite: BIOL 001 or BIOL 002 or BCOR 011 or BCOR 012.

ASCI 171. Zoos, Exotics & Endang Species. 3 Credits.
From gorillas to golden lion tamarinds, how human attitudes, activities, utilization, and management strategies impact wild and captive animal populations. Prerequisite: ASCI 001 or Instructor permission.

ASCI 177. Animal Plagues & Global Health. 3 Credits.
Introduction to domestic animal and wildlife infectious disease ecology and epidemiology, emerging and zoonotic disease. Ecological and social issues of infectious disease control explored from a One Health perspective that considers environmental and agricultural sustainability. Prerequisites: BIOL 001 or BCOR 011; and BIOL 002 or BCOR 012.

ASCI 181. Animal Science Career Seminar. 1 Credit.
Discussion and workshop activities exploring careers in animal and food science. Includes resume preparation and interview training. Prerequisite: Animal Science major.

ASCI 185. Biochem for Life & Health Sci. 3 Credits.
Exploring biological processes at the molecular level and how they are controlled. Topics include enzymes, gene expression, and metabolism of proteins, carbohydrates, and lipids. Prerequisite: CHEM 042; or CHEM 141 and CHEM 142; or other acceptable coursework in organic chemistry. Cross-listed with: BIOC 185, NFS 183, PBIOL 185.

ASCI 187. BiochemLab for Life&Health Sci. 1 Credit.
Introduction to techniques used to explore fundamental biochemistry concepts including enzyme kinetics, lipids, carbohydrate chemistry, and gene expression. Includes spectrophotometry, gel electrophoresis, and mass spectrometry. Pre-Co-requisites: PBIOL 185, BIOC 185, ASCI 185, or NFS 183. Cross-listed with: BIOC 187, NFS 187, PBIOL 187.

ASCI 192. Intermediate Special Topics. 1-18 Credits.
See Schedule of Courses for specific titles.

ASCI 192. Intermediate Special Topics. 0.5-15 Credits.
See Schedule of Courses for specific titles.
ASC 193. Independent Study. 1-18 Credits.
A course which is tailored to fit the interests of a specific student, which occurs outside the traditional classroom/laboratory setting under the supervision of a faculty member, for which credit is awarded. Offered at department discretion.

ASC 194. Teaching Assistantship. 1-3 Credits.
Undergraduate student service as a teaching assistant, usually in an introductory level course in the discipline, for which credit is awarded. Offered at department discretion.

ASC 195. Internship. 1-18 Credits.
On-site supervised work experience combined with a structured academic learning plan directed by a faculty member or a faculty-staff team in which a faculty member is the instructor of record, for which academic credit is awarded. Offered at department discretion. Prerequisite: Instructor permission. Total credits towards graduation cannot exceed 15 hours.

ASC 198. Undergraduate Research. 1-18 Credits.
Undergraduate student work on individual or small team research projects under the supervision of a faculty member, for which credit is awarded. Offered at department discretion. Prerequisites: Junior standing; Department Chair permission.

ASC 208. Equine Industry Issues. 3 Credits.
Case-based course enhances students’ abilities to integrate information, use logical thought processes, and produce concise, organized solutions to real problems, from individual horses to industry-wide. Prerequisite: ASC 115, ASC 117 or Instructor permission.

ASC 211. Summer Farm Management. 4 Credits.
A work-study program on the modern practices associated with farm management. Taught at Miner Institute, Chazy, NY. For students with a strong interest in farm management. Prerequisite: Minimum Junior standing.

ASC 215. Physiology of Reproduction. 3 Credits.
Fundamental principles of the physiology of reproduction with emphasis on, but not limited to, farm animals. Prerequisite: ASC 141 or equivalent or Instructor permission.

ASC 216. Endocrinology. 3 Credits.
Physiology of endocrine and autocrine/paracrine systems and growth factors. Prerequisites: Course in both Biology and physiology; one course in Anatomy desirable.

ASC 217. Physiology of Reproduction Lab. 1 Credit.
Laboratory for fundamental principles of the physiology of reproduction with emphasis on, but not limited to, farm animals. Must be taken concurrently with ASC 215. Prerequisites: ASC 141 or Instructor permission. Co-requisite: ASC 215.

ASC 220. Lactation Physiology. 3 Credits.
Physiological mechanisms that control and affect lactation in domestic and laboratory animals with emphasis on dairy cattle. Includes mammary anatomy, development and health, and milk synthesis. Prerequisite: One Chemistry course and one course in Anatomy and Physiology, or Instructor permission.

ASC 221. Lameness in Horses. 0 or 4 Credits.
Focuses on normal equine anatomy related to movement and what happens when horses are injured. Students learn common causes of lameness, as well as how to diagnose, treat, and prevent those causes. Labs are hands-on with horses. Prerequisites: ASC I15, ASC I17, or Instructor permission.

ASC 230. Agricultural Policy & Ethics. 3 Credits.
Examines American agriculture and policies from various perspectives - historical, political, ecological, technological, social, economic, and ethical. Emphasis on contemporary issues, policy options, future developments. Prerequisite: Junior standing or permission.

ASC 233. Dairy Cattle Breeding. 2 Credits.
Setting breeding goals, making selection and mating decisions; balancing opposing forces to maximize genetic progress, and understanding the underlying genetic principles. Prerequisites: A genetics course; a Statistics course; Instructor permission.

ASC 234. Advanced Dairy Management. 15 Credits.
An intensive, residential program at the Miner Institute providing an in-depth experiential program in the management of the dairy herd. Prerequisite: Junior standing or Farms 2+2 enrollment.

ASC 252. FARMS Senior Project. 1-18 Credits.
The students will conduct independent research focused on a project proposal that was developed and approved in previous course work (ASC 156). Prerequisites: FARMS program enrollment; Senior standing.

ASC 263. Clin Top:Companion Animal Med. 3 Credits.
The use of case studies in companion animal medicine to develop clinical, analytical, and diagnostic skills. Prerequisites: ASC 118, ASC 141; Junior standing.

ASC 264. Clin Topics:Livestock Medicine. 3 Credits.
An advanced study of diseases in cattle, sheep, goats, and pigs, emphasizing disease detection, pathobiology, treatment and prevention. Prerequisites: ASC 118, ASC 141, Junior standing.

ASC 272. Adv Top:Zoo,Exotic,Endang Spec. 3 Credits.
An exploration of modern zoo philosophy and ethics and the extent of human intervention necessary for the preservation of endangered species. Prerequisites: ASC 171 and Instructor permission.

ASC 277. Animal and Human Parasitology. 3 Credits.
This course will emphasize the morphology, life cycles, and pathogenesis of representative taxa from the parasitic protozoa, helminthes, and arthropods of humans and domestic animals. Prerequisite: BIOL 001, BIOL 002 or BCOR 011, BCOR 012, and 100 level ASCI course or equivalent or instructor permission.

ASC 293. Independent Study. 1-18 Credits.
A course which is tailored to fit the interests of a specific student, which occurs outside the traditional classroom/laboratory setting under the supervision of a faculty member, for which credit is awarded. Offered at department discretion.
ASCI 294. Teaching Assistantship. 1-3 Credits.
Undergraduate student service as a teaching assistant, usually in an introductory-level course in the discipline, for which credit is awarded. Offered at department discretion.

ASCI 295. Internship. 1-18 Credits.
On-site supervised work experience combined with a structured academic learning plan directed by a faculty member or a faculty-staff team in which a faculty member is the instructor of record, for which academic credit is awarded. Offered at department discretion.

ASCI 296. Undergraduate Research. 1-18 Credits.
Undergraduate student work on individual or small team research projects under the supervision of a faculty member, for which credit is awarded. Offered at department discretion.

ASCI 297. Advanced Special Topics. 1-18 Credits.
Written courses, seminars or topics beyond the scope of existing offerings. See Schedule of Courses for specific titles. Prerequisite: Department Chair permission. May enroll more than once for maximum of fifteen hours.

ASCI 298. Advanced Special Topics. 1-18 Credits.
Written courses, seminars or topics beyond the scope of existing offerings. See Schedule of Courses for specific titles. Prerequisite: Department Chair permission. May enroll more than once for maximum of fifteen hours.
