

## ACCELERATED MASTER'S DEGREE PATHWAYS

A number of departments and programs provide opportunities for undergraduates to participate in Accelerated Master's Pathways (AMPs). The AMP allows early admission to graduate studies with up to 9 concurrent credits double-counted toward the bachelor's and master's degrees. Consult the Graduate Catalogue or the appropriate Dean's Office for information about these or other accelerated degree pathways. This option is available for admission to the following graduate programs:

Accountancy

Advanced Specialties in Educational Practice

Animal Biosciences

Biochemistry

Biology

Biomedical Engineering

Biostatistics

Chemistry

Civil and Environmental Engineering

Community Development and Applied Economics

Complex Systems and Data Science

Computer Science

Counseling- This AMP is not currently accepting applicants

Curriculum and Instruction

Educational Leadership and Policy Studies

Electrical Engineering

English

Food Systems

Greek and Latin

Historic Preservation

History

Interdisciplinary Educational Studies

Materials Science- This AMP is not currently accepting applicants

Mathematical Sciences

Mechanical Engineering

Medical Laboratory Science - This AMP is not currently accepting applicants

Microbiology and Molecular Genetics

Natural Resources

Nursing - This AMP is not currently accepting applicants

Nutrition and Food Sciences

Pharmacology

Physics

Psychology

Public Administration

Public Health

Special Education

Statistics
