PRE-PROFESSIONAL OPTIONS FOR UNDERGRADUATE STUDENTS

Pre-Med, Pre-Dental and other Pre-Health students of all majors are supported by the Career Center’s Health Professions Interest Group. Students are strongly encouraged to engage with the group, and with the Health Professions Advisor, throughout their college career. UVM’s Pre-Medical Advisory Committee currently offers a Committee Letter for eligible students applying to medical/dental schools. For more information visit the Career Center’s (http://www.uvm.edu/career) website and join the pre-health listserv.

Pre-Law preparation is available to students of any major and is coordinated through the Career Center’s Pre-Law advisors and several faculty members. For more information visit the Pre-Law section of the Career Center’s (http://www.uvm.edu/career) website.

Pre-Vet preparation and advising is offered in Animal Sciences, a major in the College of Agriculture and Life Sciences.
