OVERVIEW

The Department of Community Development and Applied Economics (CDAE) supports sustainable local and international community development through interdisciplinary research, education, and outreach that serves the public interest. CDAE offers a Master of Science degree in Community Development and Applied Economics. Expertise among the CDAE faculty advisors includes economics (both ecological and neoclassical), rural sociology, food systems, applied econometrics, agricultural economics, policy and governance, consumer affairs, renewable energy, and community entrepreneurship. CDAE’s research and outreach is both global (e.g., Agroecology, Farmer Livelihoods and Ecosystem Services in Brazil’s Atlantic Forest) and local (e.g., dairy farming and farmers’ markets in Vermont) and graduate students benefit from close affiliation with other research institutions at the University of Vermont and beyond.
