OVERVIEW
There are 3 different types of Graduate Programs for Curriculum and Instruction:

Curriculum and Instruction, M.A.T.:
The Master of Arts in Teaching program for middle level and secondary teachers is designed for those students who aspire to earn both a Master's Degree and a license to teach in public middle or secondary schools. Students will prepare for licensure to teach in grades 5 through 9 or 7 through 12 in 1 summer and academic year.

Curriculum and Instruction, Accelerated Master's Pathway (M.A.T. AMP):
UVM students who are in their third year of study for a Bachelor's Degree may apply to the Accelerated Master of Arts in Teaching program. These students, when accepted, may complete 3-9 credits of graduate level coursework which may be counted toward both the minimum requirements for the Master of Arts in Teaching degree, as well as toward the undergraduate degree. Qualified candidates will need a major or its equivalent in an approved licensing endorsement.

The Accelerated Master’s Pathway leading to the Master of Arts in Teaching for middle level and secondary is designed for those students who aspire to earn both a Master's Degree and a license to teach in public middle or secondary schools. Students will prepare for licensure to teach in grades 5 through 9 or 7 through 12 in 1 summer and academic year.

Curriculum and Instruction, M.Ed.:
The Master's in Education Degree in Curriculum and Instruction is designed to advance curriculum design for innovative educators with attention to research methods to advance practice. Additional emphasis is placed on advancing understanding of curriculum theory and practice, collaboration across school and community contexts, and responsive design to ensure optimal development of the whole child.

Courses
EDCI 5001. Python Program for Educators. 4 Credits.
Covers the fundamentals of programming, using the Python programming language. Students will write non-trivial Python programs, assess programming assignments, read, analyze and discuss relevant literature in CS and Education and create lesson plans and other CS resources for their teaching practice.

EDCI 5002. Java Programming for Educators. 4 Credits.
Intermediate programming concepts including common data structures, algorithms, design, documentation, testing and debugging techniques, and an introduction to object-oriented programming. Focuses on learning fundamentals of Java programming and the pedagogical theories, principles methods for integrating Java into the grade 7-12 classroom. Prerequisite: EDCI 5001.

EDCI 5003. Web Design for Educators. 4 Credits.
Covers the fundamentals of HTML, CSS, working with images, PHP programming, and web design needed to create a functional website. Assess programming assignments, read, analyze, and discuss relevant literature in CS and education and create lesson plans and other CS resources for students' teaching practice. Prerequisites: EDCI 5001, EDCI 5002.

EDCI 5004. Computer Organization for Educ. 3 Credits.
Covers computer system organization including performance, assembly language, machine-level data representation, arithmetic for computers, processor datapath control, memory, and input/output. Students will read, analyze, and discuss education literature and create lesson plans/units and other CS resources for their teaching practice. Prerequisites: EDCI 5001, EDCI 5002, EDCI 5003.
EDCI 5005. Data Science for Educators. 3 Credits.
Extracting meaning from data remains one of the most important tasks of research and industry. The modern age of computers and the Internet has made vast amounts of data available, making it more important than ever to understand how to collect, process, and analyze these data ethically and responsibly. Focuses on learning data science fundamentals and the pedagogical methods to integrating data science into the grade 7-12 classroom. Prerequisites: EDCI 5001, EDCI 5002, EDCI 5003, EDCI 5004.

EDCI 5990. Special Topics. 1-18 Credits.
See Schedule of Course for specific titles.

EDCI 5993. Independent Study. 1-18 Credits.
A course which is tailored to fit the interests of a specific student, which occurs outside the traditional classroom/laboratory setting under the supervision of a faculty member, for which credit is awarded. Offered at department discretion.

EDCI 6210. Learning, Design & Technology. 3 Credits.
This course examines the relationship between learning theory and technology integration in K-12 classrooms and integrates backward design in standards-based units of study. Prerequisite: Teaching experience.

EDCI 6220. Differentiation & Technology. 3 Credits.
This course enables educators to develop and utilize instructional frameworks based on current research related to differentiating instruction, universal design for learning and assistive technology.

EDCI 6230. Inquiry and Technology. 3 Credits.
This course examines how technology can promote a student-centered active learning classroom environment that promotes problem-solving and critical thinking skills. Prerequisite: Prior teaching experience.

EDCI 6240. Assessment and Technology. 3 Credits.
Students will cover assessment basics, the role of technology in education, information & knowledge management, and methods for integrating technology into assessment practice.

EDCI 6250. Leadership and Technology. 3 Credits.
This course explores leadership and the role of the Integration Specialist and/or teacher leader in the context of educational technology integration planning.

EDCI 6310. Society, Stress and the Brain. 3 Credits.
Explores brain development and the learning process under complex social conditions such as poverty, instability, and fear. Students study the effects of stress on learning and consider methods of instruction and interaction that address developmental needs of children and families from diverse contexts.

EDCI 6391. Master's Thesis Research. 1-18 Credits.
Thesis topic must be approved by a faculty committee. Credit as arranged.

EDCI 6430. Fndns in Ed for Sustainability. 3 Credits.
Prepares educators to use sustainability as an integrating lens for learning. Provides an introduction to Education for Sustainability (EFS), an approach that links teaching of social, environmental, and economic systems to foster the knowledge, inquiry, and action needed to build a healthy and just future for communities, both locally and globally.

EDCI 6440. Mthds in Ed for Sustainability. 3 Credits.
Explores designing for education for sustainability (EFS). Participants should have a foundation in EFS, associated pedagogies, and curriculum or project development strategies. Action-oriented, culminating in a project or curriculum to implement. Pre/Co-requisite: EDCI 6430.

EDCI 6450. Transfrm Ldrshp Edu for Sustain. 3 Credits.
Focuses on developing students' education for sustainability leadership practices and offers tools to transform ourselves and our community. Explores a whole-systems and ecological approach for leading change in complex and emergent times. A core element of this course is the community that will be co-developed through collective work. Prerequisite: EDCI 6430. Pre/Co-requisite: EDCI 6440.

EDCI 6460. Edu for Sustain Inquiry Action. 3 Credits.
Designed to support practitioners advanced in EFS. In collaboration with education experts, systems-thinking and leadership, students will developing a peer network committed to ecological integrity, economic vitality, and social justice. Students will also use inquiry and action research frameworks to investigate a personally meaningful question about their EFS practice. Prerequisite: EDCI 6430. Pre/Co- requisites: EDCI 6440, EDCI 6450.

EDCI 6800. Professional Problems in Ed. 3 Credits.
Designed to cover selected educational problems in depth. The major emphasis will be on intensive and critical analysis of the literature and practice in a given area.

EDCI 6990. Special Topics. 1-18 Credits.
See Schedule of Courses for specific titles.
EDCI 6991. Internship. 1-18 Credits.
On-site supervised work experience combined with a structured academic learning plan directed by a faculty member or a faculty-staff team in which a faculty member is the instructor of record, for which academic credit is awarded. Offered at department discretion.

EDCI 6993. Independent Study. 1-18 Credits.
A course which is tailored to fit the interests of a specific student, which occurs outside the traditional classroom/laboratory setting under the supervision of a faculty member, for which credit is awarded. Offered at department discretion.

EDCI 6995. Graduate Independent Research. 1-18 Credits.
Graduate student work on individual or small team research projects under the supervision of a faculty member, for which credit is awarded. Offered at department discretion.
