

EDUCATION FOR SUSTAINABILITY

<https://www.uvm.edu/cess/doe>

OVERVIEW

To accelerate transformative societal response to the interconnected environmental, social, and economic challenges of our time, the University of Vermont and the Shelburne Farms Institute for Sustainable Schools established a partnership to offer 2 certificates of graduate study in Education for Sustainability (EFS). Each certificate program is designed for practicing preK-12, post-secondary, and informal educators as well as those working in museum education, outdoor education, parks and recreation activities, and other fields where natural and built environments are part of the curriculum. Grounded in action research, transformative education, and youth leadership, the EFS coursework prepares educators to empower learners in making positive changes in their communities while shifting societies to improve the quality of life for current and for future generations.

DEGREES

Education for Sustainability CGS

Education for Sustainability mCGS
