EDUCATION FOR SUSTAINABILITY

https://www.uvm.edu/cess/doe

OVERVIEW

To accelerate transformative societal response to the interconnected environmental, social, and economic challenges of our time, the University of Vermont and the Shelburne Farms (https://shelburnefarms.org/efs-certificates/) Institute for Sustainable Schools established a partnership to offer 2 certificates of graduate study in Education for Sustainability (EFS). Each certificate program is designed for practicing preK-12, post-secondary, and informal educators as well as those working in museum education, outdoor education, parks and recreation activities, and other fields where natural and built environments are part of the curriculum. Grounded in action research, transformative education, and youth leadership, the EFS coursework prepares educators to empower learners in making positive changes in their communities while shifting societies to improve the quality of life for current and for future generations.

DEGREES

Education for Sustainability CGS (http://catalogue.uvm.edu/graduate/ed/edsuscg/) Education for Sustainability mCGS (http://catalogue.uvm.edu/graduate/ed/edsusmcg/)

FACULTY

Jorgenson, Simon; Assistant Professor, Department of Education; PHD, University of Cincinnati

Poleman, Walter Mallery; Senior Lecturer, Rubenstein School of Environment and Natural Resources; MS, University of Vermont

Toolin, Regina; Associate Professor, Department of Education; PHD, University of Wisconsin-Madison

Courses

EDCI 321. Learning, Design & Technology. 3 Credits.
This course examines the relationship between learning theory and technology integration in K-12 classrooms and integrates backward design in standards-based units of study. Prerequisite: Teaching experience.

EDCI 322. Differentiation & Technology. 3 Credits.
This course enables educators to develop and utilize instructional frameworks based on current research related to differentiating instruction, universal design for learning and assistive technology.

EDCI 323. Inquiry and Technology. 3 Credits.
This course examines how technology can promote a student-centered active learning classroom environment that promotes problem-solving and critical thinking skills. Prerequisite: Prior teaching experience.

EDCI 324. Assessment and Technology. 3 Credits.
Students will cover assessment basics, the role of technology in education, information & knowledge management, and methods for integrating technology into assessment practice.

EDCI 325. Leadership and Technology. 3 Credits.
This course explores leadership and the role of the Integration Specialist and/or teacher leader in the context of educational technology integration planning.

EDCI 331. Society, Stress and the Brain. 3 Credits.
Explores brain development and the learning process under complex social conditions such as poverty, instability, and fear. Students study the effects of stress on learning and consider methods of instruction and interaction that address developmental needs of children and families from diverse contexts.

EDCI 333. Curr Concepts/Planning/Develop. 3 Credits.
Overview of conceptions of curriculum for elementary and secondary education; examination of contemporary curriculum trends, issues; processes for initiating, planning, developing curriculum activities and programs. Prerequisite: Twelve hours of Education or Instructor permission.

EDCI 343. Fndns in Ed for Sustainability. 3 Credits.
Prepares educators to use sustainability as an integrating lens for learning. Provides an introduction to Education for Sustainability (EFS), an approach that links teaching of social, environmental, and economic systems to foster the knowledge, inquiry, and action needed to build a healthy and just future for communities, both locally and globally.

EDCI 344. Mthds in Ed for Sustainability. 3 Credits.
Explores designing for education for sustainability (EFS). Participants should have a foundation in EFS, associated pedagogies, and curriculum or project development strategies. Action-oriented, culminating in a project or curriculum to implement. Pre/Co-requisite: EDCI 343.

EDCI 345. Trnsfrm Ldrshp Edu for Sustain. 3 Credits.
Focuses on developing students’ education for sustainability leadership practices and offers tools to transform ourselves and our community. Explores a whole-systems and ecological approach for leading change in complex and emergent times. A core element of this course is the community that will be co-developed through collective work. Prerequisite: EDCI 343. Pre/Co-requisite: EDCI 344.

EDCI 346. Edu for Sustain Inquiry Action. 3 Credits.
Designed to support practitioners advanced in EFS. In collaboration with education experts, systems-thinking and leadership, students will developing a peer network committed to ecological integrity, economic vitality, and social justice. Students will also use inquiry and action research frameworks to investigate a personally meaningful question about their EFS practice. Prerequisite: EDCI 343. Pre/Co-requisites: EDCI 344, EDCI 345.
EDCI 360. Professional Learning in Orgs. 3 Credits.
Examines effective strategies for professional learning. Attends
to different learning theories for professional learning and how
organizational structures, political dynamics, and change processes
can influence how professional learning is received and implemented.
Prerequisite: Graduate student standing.

EDCI 380. Professional Problems in Ed. 3 Credits.
Designed to cover selected educational problems in depth. The major
emphasis will be on intensive and critical analysis of the literature and
practice in a given area.

EDCI 390. Internship. 1-18 Credits.
On-site supervised work experience combined with a structured
academic learning plan directed by a faculty member or a faculty-staff
team in which a faculty member is the instructor of record, for which
academic credit is awarded. Offered at department discretion.

EDCI 391. Master’s Thesis Research. 1-12 Credits.
Thesis topic must be approved by a faculty committee. Credit as
arranged.

EDCI 392. Independent Study. 1-18 Credits.
A course which is tailored to fit the interests of a specific student,
which occurs outside the traditional classroom/laboratory setting
under the supervision of a faculty member, for which credit is
awarded. Offered at department discretion.

EDCI 394. Independent Graduate Research. 1-18 Credits.
Graduate student work on individual or small team research projects
under the supervision of a faculty member, for which credit is
awarded. Offered at department discretion.

EDCI 396. Advanced Special Topics. 1-18 Credits.
See Schedule of Courses for specific titles.
