TRANSDISCIPLINARY LEADERSHIP AND CREATIVITY FOR SUSTAINABILITY

http://www.uvm.edu/rsenr/

OVERVIEW

The Ph.D. in Transdisciplinary Leadership & Creativity for Sustainability (TLCS) program will prepare students to sustain rigorous, collaborative, and original scholarly knowledge production practices across community, organizational, ecological, and social movement settings to address complex challenges from a place of creativity. This Ph.D. program is rooted in a tradition of engaged scholarship that recognizes the inseparability of environmental and social challenges, as well as the interdependence of cultural and biological diversity. Anchored by the wisdom and experience of a global community, the TLCS program is made up of practitioner scholars who embody relational leadership and knowledge generation practices rooted in lineages and traditions that stand for love, relationship, reciprocity and solidarity.

DEGREES

Transdisciplinary Leadership and Creativity for Sustainability Ph.D.

FACULTY

Bose, Pablo Shiladitya; Associate Professor, Department of Geography and Geosciences; PHD, York University
Clark/Keefe, Kelly; Associate Professor, Department of Education; EDD, University of Vermont
Erickson, Jon; Professor; Rubenstein School of Environmental and Natural Resources; PHD, Cornell University
Fisher, Brendan; Professor, Rubenstein School of Environment and Natural Resources; PHD, University of Vermont
Georgiou, Elena; Adjunct Assistant Professor, Rubenstein School of Environment and Natural Resources; MA, City University of New York
Ivakhiv, Adrian J; Professor, Rubenstein School of Environment and Natural Resources; PHD, York University
Kapil, Bhanu; Adjunct Associate Professor, Rubenstein School of Environmental and Natural Resources; MA, SUNY Brockport
Kolan, Matthew Peter; Senior Lecturer; Rubenstein School of Environment and Natural Resources; PHD, University of Vermont
Kuentzel, Walter Frederick; Professor Emeritus; Rubenstein School of Environment and Natural Resources; PHD, University of Wisconsin-Madison
Laine Talley, Heather; Adjunct Assistant Professor, Rubenstein School of Environmental and Natural Resources; PHD Vanderbilt University
Mathews, Nancy; Professor Emeritus and Dean Emeritus, Rubenstein School of Environment and Natural Resources; PHD, State University of New York College of Environmental Science & Forestry
Mayo, Cris; Professor, Department of Education; PHD, University of Illinois at Urbana-Champaign

Mendez, Victor E.; Professor, Department of Plant and Soil Science; PHD, University of California Santa Cruz
Panikkar, Bindu; Assistant Professor, Rubenstein School of Environment and Natural Resources; PHD, Tufts University
Pinto, Sayra; Adjunct Assistant Professor, Rubenstein School of Environmental and Natural Resources; PHD, The Union Institute and University
Reyes, Cynthia C.; Associate Professor, Department of Education; PHD, University of Illinois at Chicago
Stepen, Kristine F.; Extension Assistant Professor, Rubenstein School of Environment and Natural Resources, PHD; University of Wisconsin-Madison
Vea, Marie C.; Research Assistant Professor, Rubenstein School of Environment and Natural Resources, PHD; University of Vermont
Vivanco, Luis A.; Professor, Department of Anthropology; PHD, Princeton University
Wollenberg, Eva (Lini); Research Professor, Rubenstein School of Environmental and Natural Resources; PHD, University of California, Berkeley

Courses

NR 5450. Data Vis & Communication. 3 Credits.
Focuses on fundamentals and practice of data visualization and communication. Learn the ways humans use cognitive and perceptual abilities to comprehend information, best practices for creating compelling and effective data visualizations, and the many nuanced factors influencing the successful application of practices. Includes work with an existing research data set. Prerequisite: Graduate student or Instructor permission.

NR 5460. Geospatial Computation. 3 Credits.
Geospatial Computation is the study of general computational methods applied to spatial and spatiotemporal data for exploratory, confirmatory, descriptive or predictive analysis. Introduces foundational concepts applications in spatial data science within the context of GIS. Computational approaches in spatial simulation, exploratory data analysis, predictive analysis and geospatial data visualization. Prerequisite: Graduate student or Instructor permission.

NR 5990. Special Topics. 1-18 Credits.
See Schedule of Courses for specific titles.

NR 6060. Envisioning a Sust Future. 2 Credits.
Seminar orienting Graduate students to RSENR and providing frameworks for collaborative leadership, whole systems thinking, and intercultural competency.

NR 6070. Applied Ecol., Env. & Society. 2 Credits.
Critically examines the process and ethics of science, including scientific reasoning, theory, hypotheses, and integration with experimental design, discovery, and ethics. Students will begin to form their professional networks and understand the historical and contemporary influences of professional networks on research and scholarship.
NR 6110. Leadership for Sustainability. 3 Credits.
Provides an experiential and theoretical orientation to foundational practices, principles, and skills of sustainability leadership with an emphasis on ecological/systems thinking, sustainability, and leadership.

NR 6120. Power Privilege & Catalyz Change. 3 Credits.
Focuses on leadership skills and systems frameworks for engaging with issues of diversity, power, and privilege and the implications of these topics on leaders’ capacity. Designed to meet the Rubenstein School of Environment & Natural Resources graduate diversity requirement. Prerequisite: NR 6110.

NR 6391. Master’s Thesis Research. 1–18 Credits.
Research for the Master’s Thesis.

NR 6392. Master’s Project Research. 1–12 Credits.
Research for the Master’s Project.

NR 6410. Ecological Economic Theory. 3 Credits.
A transdisciplinary study of the economic system as embedded and interdependent on social institutions and environmental systems.

NR 6420. Ecosystem Services. 3 Credits.
Examines the economic and other benefits nature provides to people. Covers the ecological foundations of quantifying ecosystem services, the economics of valuing them, and the practical issues involved with putting them to work for conservation. Prerequisite: Instructor permission.

NR 6430. Fndmtls of Geog Info Systems. 0 or 3 Credits.
Concepts and methods in Geographic Information Systems (GIS) presented at an accelerated pace for Graduate students using ArcGIS software.

NR 6510. Ecological Economics Methods. 3 Credits.
A survey of frameworks and tools used to analyze and understand linked social and natural systems.

NR 6520. Ecological Economics Practice. 3 Credits.
An applied field course drawing from Ecological Economics theory and methods to help solve real-world problems at the interface among ecological, social, and economic systems.

NR 6720. Transdisc Leadshp & Creatvty. 3 Credits.
Explores the theoretical and practice-based fields and lineages associated with transdisciplinary leadership and creativity while providing a solid structural and relational grounding for students in the Transdisciplinary Leadership, Creativity & Sustainability Doctoral Program.

NR 6730. Transdisc Mthds&Modes of Inqry. 3 Credits.
Focuses on practices for engaging with inquiry, methods, and practice as students develop more clarity about the research questions, practices, structure, methods, and lineages that will inform their dissertation proposal and research.

NR 6760. Graduate Teaching Practicum. 2 Credits.
Natural resource teaching practicum for Doctoral students in the Rubenstein School. Course is required if students are following the academic option. Should be taken concurrently or one semester in advance of completion of the doctoral teaching requirement. Prerequisite: Doctoral student.

NR 6880. Ecological Leadership Seminar. 3 Credits.
Explores emerging topics and themes related to the theory and practice of ecological leadership. Can be taken in successive semesters (up to two times), as learning module topics will change.

NR 6890. Ecological Ldership Practicum. 3 Credits.
An advanced exploration of ecological/systems thinking, sustainability, leadership skills, and leveraging change; offering students the opportunity to integrate these concepts and skills through an applied leadership practicum. Prerequisite: NR 6880.

NR 6990. Special Topics. 1–18 Credits.
Graduate topics and material that may eventually develop into a regular course offering.

NR 6991. Internship. 1–18 Credits.
On-site supervised work experience combined with a structured academic learning plan directed by a faculty member or a faculty-staff team in which a faculty member is the instructor of record, for which academic credit is awarded. Offered at department discretion.

NR 6995. Graduate Independent Research. 1–18 Credits.
Graduate student work on individual or small team research projects under the supervision of a faculty member, for which credit is awarded. Offered at department discretion.

NR 7491. Doctoral Dissertation Research. 1–18 Credits.
Research for the Doctoral Dissertation.

NR 7740. Creative Practice & Dissertatn. 3 Credits.
For Doctoral students nearing the end of dissertation research and beginning the integration, diffraction, synthesis, and meaning-making process essential to their dissertation. Provides structure, support and feedback in the creative act of crafting a dissertation. Prerequisites: NR 6720, NR 6730.

NR 7790. Special Topics. 1–18 Credits.
See Schedule of Courses for specific titles.

NR 7991. Internship. 1–18 Credits.
On-site supervised work experience combined with a structured academic learning plan directed by a faculty member or a faculty-staff team in which a faculty member is the instructor of record, for which academic credit is awarded. Offered at department discretion.

NR 7995. Graduate Independent Research. 1–18 Credits.
Graduate student work on individual or small team research projects under the supervision of a faculty member, for which credit is awarded. Offered at department discretion.
