

HEALTH AND SOCIETY

<https://www.uvm.edu/cas/healthsociety> (<https://www.uvm.edu/cas/healthsociety/>)

Health and Society is an interdisciplinary cross-college program that brings together an array of social science approaches to address critical questions concerning health, healing, and health care in human populations. Program faculty and students examine the many ways in which human health, healing, and health care are defined, perceived, and enacted, and in which access to health and health care are distributed, within and across populations.
