

ORAL COMMUNICATION (OC)

Oral communication refers to how speakers create and use messages to generate meanings across a wide variety of contexts and cultures. This includes the use of verbal and nonverbal communication practices. The oral communication general education requirement aims to enhance students' ability to speak, listen, and interact with others effectively and ethically. Students will develop effective speaking skills, including crafting messages that are appropriately adapted to purpose, audience, context, and occasion. In addition, students will gain proficiency in practices of effective listening and the critical analysis of oral presentation. Furthermore, competency in oral communication will demonstrate students' abilities to understand and synthesize theories of human communication and how to utilize and apply these theories to crafting effective speaking and listening practices. Courses in this category provide students with an understanding of the form, content, effectiveness, and ethical dimensions of verbal and nonverbal communication. Courses are not required to be delivered in English; sign language courses that develop equivalent communication skills through a signed linguistic modality may also fulfill this requirement.

Students are required to take 1 OC course -OR- 1 WIL2 course.

Code	Title	Hours
BME 4600	Capstone Design I	0,3
BUS 1130	Business Communications	3
CALS 1010	Foundations:Communication Meth	0,3
